

Represent each equation with numbers and symbols.

Answers

- 1) nine minus seven equals two
- 2) eight plus one equals nine
- 3) five minus one equals four
- 4) eighteen plus one equals nineteen
- 5) twelve minus two equals ten
- 6) ten minus six equals four
- 7) three plus two equals five
- 8) thirteen plus seven equals twenty
- 9) eight minus two equals six
- 10) seven minus zero equals seven
- 11) eleven minus four equals seven
- 12) eighteen minus one equals seventeen
- 13) seven minus zero equals seven
- 14) thirteen minus one equals twelve
- 15) twelve plus seven equals nineteen
- 16) fifteen plus zero equals fifteen
- 17) six minus five equals one
- 18) twenty plus zero equals twenty
- 19) eighteen minus zero equals eighteen
- 20) eleven plus one equals twelve

**Represent each equation with numbers and symbols.**

- 1) nine minus seven equals two
- 2) eight plus one equals nine
- 3) five minus one equals four
- 4) eighteen plus one equals nineteen
- 5) twelve minus two equals ten
- 6) ten minus six equals four
- 7) three plus two equals five
- 8) thirteen plus seven equals twenty
- 9) eight minus two equals six
- 10) seven minus zero equals seven
- 11) eleven minus four equals seven
- 12) eighteen minus one equals seventeen
- 13) seven minus zero equals seven
- 14) thirteen minus one equals twelve
- 15) twelve plus seven equals nineteen
- 16) fifteen plus zero equals fifteen
- 17) six minus five equals one
- 18) twenty plus zero equals twenty
- 19) eighteen minus zero equals eighteen
- 20) eleven plus one equals twelve

**Answers**

1.  $9 - 7 = 2$
2.  $8 + 1 = 9$
3.  $5 - 1 = 4$
4.  $18 + 1 = 19$
5.  $12 - 2 = 10$
6.  $10 - 6 = 4$
7.  $3 + 2 = 5$
8.  $13 + 7 = 20$
9.  $8 - 2 = 6$
10.  $7 - 0 = 7$
11.  $11 - 4 = 7$
12.  $18 - 1 = 17$
13.  $7 - 0 = 7$
14.  $13 - 1 = 12$
15.  $12 + 7 = 19$
16.  $15 + 0 = 15$
17.  $6 - 5 = 1$
18.  $20 + 0 = 20$
19.  $18 - 0 = 18$
20.  $11 + 1 = 12$
