

Use multiplication rules to determine the missing remainder for each problem.

Answers

1) $896 \div 10 = 89 \text{ r } \underline{\hspace{1cm}}$

2) $3,958 \div 2 = 1,979 \text{ r } \underline{\hspace{1cm}}$

3) $9,794 \div 10 = 979 \text{ r } \underline{\hspace{1cm}}$

4) $2,795 \div 5 = 559 \text{ r } \underline{\hspace{1cm}}$

5) $89 \div 2 = 44 \text{ r } \underline{\hspace{1cm}}$

6) $7,693 \div 10 = 769 \text{ r } \underline{\hspace{1cm}}$

7) $255 \div 2 = 127 \text{ r } \underline{\hspace{1cm}}$

8) $6,392 \div 5 = 1,278 \text{ r } \underline{\hspace{1cm}}$

9) $9,679 \div 5 = 1,935 \text{ r } \underline{\hspace{1cm}}$

10) $3,107 \div 2 = 1,553 \text{ r } \underline{\hspace{1cm}}$

11) $27 \div 10 = 2 \text{ r } \underline{\hspace{1cm}}$

12) $124 \div 2 = 62 \text{ r } \underline{\hspace{1cm}}$

13) $653 \div 10 = 65 \text{ r } \underline{\hspace{1cm}}$

14) $159 \div 5 = 31 \text{ r } \underline{\hspace{1cm}}$

15) $7,691 \div 5 = 1,538 \text{ r } \underline{\hspace{1cm}}$

16) $1,599 \div 2 = 799 \text{ r } \underline{\hspace{1cm}}$

17) $81 \div 2 = 40 \text{ r } \underline{\hspace{1cm}}$

18) $57 \div 2 = 28 \text{ r } \underline{\hspace{1cm}}$

19) $3,730 \div 10 = 373 \text{ r } \underline{\hspace{1cm}}$

20) $390 \div 10 = 39 \text{ r } \underline{\hspace{1cm}}$

Use multiplication rules to determine the missing remainder for each problem.

1) $896 \div 10 = 89 \text{ r } \underline{6}$

2) $3,958 \div 2 = 1,979 \text{ r } \underline{0}$

3) $9,794 \div 10 = 979 \text{ r } \underline{4}$

4) $2,795 \div 5 = 559 \text{ r } \underline{0}$

5) $89 \div 2 = 44 \text{ r } \underline{1}$

6) $7,693 \div 10 = 769 \text{ r } \underline{3}$

7) $255 \div 2 = 127 \text{ r } \underline{1}$

8) $6,392 \div 5 = 1,278 \text{ r } \underline{2}$

9) $9,679 \div 5 = 1,935 \text{ r } \underline{4}$

10) $3,107 \div 2 = 1,553 \text{ r } \underline{1}$

11) $27 \div 10 = 2 \text{ r } \underline{7}$

12) $124 \div 2 = 62 \text{ r } \underline{0}$

13) $653 \div 10 = 65 \text{ r } \underline{3}$

14) $159 \div 5 = 31 \text{ r } \underline{4}$

15) $7,691 \div 5 = 1,538 \text{ r } \underline{1}$

16) $1,599 \div 2 = 799 \text{ r } \underline{1}$

17) $81 \div 2 = 40 \text{ r } \underline{1}$

18) $57 \div 2 = 28 \text{ r } \underline{1}$

19) $3,730 \div 10 = 373 \text{ r } \underline{0}$

20) $390 \div 10 = 39 \text{ r } \underline{0}$
