- 1) Mike was helping the cafeteria workers pick up lunch trays, but he could only carry three trays at a time. If he had to pick up seven trays from one table and seventeen trays from another, how many trips will he make?
- 2) A pet shelter had thirty-two puppies when another thirty-one were brought in. If nine puppies a day are adopted, how long would it take for all of them to be adopted?
- 3) A vase can hold nine flowers. If you had seven carnations and seventy-four roses, how many vases would you need to hold the flowers?
- **4)** A toy store had six giant stuffed bears in stock when they got another shipment with thirty-six bears in it. The put the bears onto shelves with seven on each shelf. How many shelves did they use?
- 5) Bianca was making baggies of cookies with three cookies in each bag. If she had ten chocolate chip cookies and eight oatmeal cookies, how many baggies could she make?
- **6)** Dave made four dollars mowing lawns and twenty-three dollars weed eating. If he only spent nine dollar a week, how long would the money last him?
- 7) Adam was organizing his baseball cards in a binder with seven on each page. If he had fourteen new cards and fourteen old cards to put in the binder, how many pages would he use?
- 8) Isabel's class is going on a field trip to the zoo. If each van can hold five people and there are twenty-one students and nineteen adults going, how many vans will they need?
- 9) Lana's old washing machine could only wash nine pieces of clothing at a time. If she had to wash fifty-two shirts and eleven sweaters how many loads would she have to do?
- **10)** Katie and her friends were recycling paper for their class. For every eight pounds they recycled they earned 1 point. If Katie recycled seven pounds and her friends recycled nine pounds, how many points did they earn?
