## Use addition, subtraction, multiplication or division to solve each problem.

1) Gwen was buying hand towels for her house. She bought 5 packs with each pack having 9 towels in it. How many towels did she buy?
2) A group of 3 friends were dressing as pirates for Halloween. If each costume cost 8 dollars, how much did they spend?
3) There are 11 different books in the 'Crazy Silly School' series. If you read 3 of the books, how many more do you still have to read?
4) For the new school year Nancy's mom bought 12 folders. If each class needs 3 folders, how many classes does Nancy have?
5) Edward read 9 chapters of a book. If each chapter was 6 pages, how many pages did he read?
6) There are 30 students going on a field trip. If each school van can hold 6 students, how many vans will they need?
7) Olivia was placing her spare change into stacks. One stack had 2 coins and the other had 6. How many coins did she have total?
8) George threw a Halloween party where 7 people showed up. If only 2 dressed up, how many people didn't wear costumes?
9) Katie bought 11 new shirts for school. If she returned 5 of them, how many did she end up with?
10) Vanessa was helping her mom plant vegetables in the garden. Together they planted 7 rows of potatoes with 6 seeds in each row. How many potatoes did they plant total?
11) Paul had 30 bottles of water. If he drank 6 each day how many days would they last him?
12) Carol bought 5 music albums online. If each album had 6 songs, how many songs did she buy total?
13) A pet store had two different types of cats. They had 3 house cats and they had 4 siamese cats. How many cats did they have total?
14) Tom had 9 old video games he was wanting to get rid of. If he gave his friend 6 of the games, how many does he still have?
15) Isabel had to complete 6 pages of math homework and 8 pages of reading homework. How many pages did she have to complete total?
