

Solve each problem.

- 1) What is the value of the 8 in the number 8,793?
- 2) What is the value of the 5 in the number 52,641?
- 3) What is the value of the 9 in the number 1,293,674?
- 4) What is the value of the 3 in the number 587,931?
- 5) What is the value of the 8 in the number 5,683?
- 6) What is the value of the 5 in the number 9,657,381?
- 7) What is the value of the 1 in the number 1,548?
- 8) What is the value of the 8 in the number 825?
- 9) What is the value of the 7 in the number 3,571,946?
- 10) What is the value of the 3 in the number 7,693,214?
- 11) What is the value of the 5 in the number 19,358,472?
- 12) What is the value of the 3 in the number 8,631?
- 13) What is the value of the 1 in the number 516?
- 14) What is the value of the 4 in the number 159,428?
- 15) What is the value of the 6 in the number 586,193?
- 16) What is the value of the 5 in the number 7,563?
- 17) What is the value of the 8 in the number 98,651?
- 18) What is the value of the 3 in the number 1,635,849?
- 19) What is the value of the 4 in the number 9,243?
- 20) What is the value of the 8 in the number 8,529?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
