

Solve each problem.

- 1) What is the value of the 6 in the number 1,364?
- 2) What is the value of the 1 in the number 12?
- 3) What is the value of the 7 in the number 276,853?
- 4) What is the value of the 2 in the number 27,568?
- 5) What is the value of the 6 in the number 45,269,178?
- 6) What is the value of the 3 in the number 32,587?
- 7) What is the value of the 5 in the number 459,327?
- 8) What is the value of the 1 in the number 73,152?
- 9) What is the value of the 5 in the number 1,825,493?
- 10) What is the value of the 1 in the number 18?
- 11) What is the value of the 5 in the number 1,549?
- 12) What is the value of the 7 in the number 827,346?
- 13) What is the value of the 1 in the number 7,913,458?
- 14) What is the value of the 7 in the number 7,829?
- 15) What is the value of the 6 in the number 524,687?
- 16) What is the value of the 2 in the number 8,295?
- 17) What is the value of the 1 in the number 7,561,248?
- 18) What is the value of the 6 in the number 96,782?
- 19) What is the value of the 8 in the number 18,945?
- 20) What is the value of the 8 in the number 384?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
