

**Determine which choice best answers each question.****Answers**

- 1) Which choice has a digit in the hundreds place that is exactly four times the value of the digit in the tens place?  
A. 827                      B. 382                      C. 568                      D. 213
- 2) Which choice has a digit in the tens place that is exactly twice the value of the digit in the thousands place?  
A. 9,871                      B. 2,449                      C. 7,134                      D. 5,916
- 3) Which choice has a digit in the thousands place that is exactly three times the value of the digit in the hundreds place?  
A. 3,154,297                      B. 9,743,121                      C. 6,142,987                      D. 3,679,215
- 4) Which choice has a digit in the ones place that is exactly five times the value of the digit in the tens place?  
A. 15                      B. 87                      C. 53                      D. 56
- 5) Which choice has a digit in the hundreds place that is exactly twice the value of the digit in the tens place?  
A. 635                      B. 647                      C. 357                      D. 297
- 6) Which choice has a digit in the hundreds place that is exactly twice the value of the digit in the tens place?  
A. 219                      B. 854                      C. 965                      D. 748
- 7) Which choice has a digit in the tens place that is exactly eight times the value of the digit in the thousands place?  
A. 9,634                      B. 8,276                      C. 6,874                      D. 1,183
- 8) Which choice has a digit in the thousands place that is exactly six times the value of the digit in the tens place?  
A. 869,321                      B. 563,749                      C. 566,814                      D. 317,954
- 9) Which choice has a digit in the ones place that is exactly three times the value of the digit in the tens place?  
A. 158                      B. 939                      C. 594                      D. 625
- 10) Which choice has a digit in the hundred thousands place that is exactly seven times the value of the digit in the ones place?  
A. 743,692                      B. 392,458                      C. 765,381                      D. 192,473
