

Solve each problem.

- 1) What is the value of the 2 in the number 24,538?
- 2) What is the value of the 2 in the number 9,752,836?
- 3) What is the value of the 6 in the number 398,647?
- 4) What is the value of the 9 in the number 6,935?
- 5) What is the value of the 9 in the number 91,426?
- 6) What is the value of the 5 in the number 195,267?
- 7) What is the value of the 9 in the number 321,896?
- 8) What is the value of the 8 in the number 95,187?
- 9) What is the value of the 6 in the number 376,941?
- 10) What is the value of the 9 in the number 36,951?
- 11) What is the value of the 8 in the number 67,581,432?
- 12) What is the value of the 3 in the number 147,839?
- 13) What is the value of the 9 in the number 6,591?
- 14) What is the value of the 6 in the number 3,186,427?
- 15) What is the value of the 5 in the number 654?
- 16) What is the value of the 6 in the number 689?
- 17) What is the value of the 5 in the number 516?
- 18) What is the value of the 3 in the number 281,367?
- 19) What is the value of the 7 in the number 5,271,684?
- 20) What is the value of the 5 in the number 52?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
