

Solve each problem.

- 1) What is the value of the 8 in the number 5,487,312?
- 2) What is the value of the 9 in the number 178,942?
- 3) What is the value of the 6 in the number 124,658?
- 4) What is the value of the 9 in the number 913?
- 5) What is the value of the 4 in the number 2,483?
- 6) What is the value of the 8 in the number 6,845?
- 7) What is the value of the 7 in the number 954,271?
- 8) What is the value of the 3 in the number 69,534?
- 9) What is the value of the 5 in the number 495,732?
- 10) What is the value of the 9 in the number 62,793,148?
- 11) What is the value of the 3 in the number 34?
- 12) What is the value of the 9 in the number 8,295,437?
- 13) What is the value of the 4 in the number 9,841?
- 14) What is the value of the 9 in the number 896,152?
- 15) What is the value of the 6 in the number 5,864,123?
- 16) What is the value of the 2 in the number 572,183?
- 17) What is the value of the 1 in the number 718?
- 18) What is the value of the 1 in the number 371,269?
- 19) What is the value of the 3 in the number 3,527?
- 20) What is the value of the 9 in the number 612,594?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
